**Dear FCC Officials,**

Re: Waiver request 02-6 (Schools and Libraries Program)

On behalf of the student body, parents, staff, LSCO, and my administrative team, I would like to request a waiver because our 471 funding requests were filed past the midnight deadline last night. Our school exposes inner city youth to the latest technologies and learning tools. Seeking to erase the digital divide between urban and suburban educations our mission is to help propel tomorrow's leaders by exposure to technology.

Of late our school has had challenges seeking out Federal and State grants due to stretched staffing levels. Your mission of empowering urban and rural schools by providing discounts on internet access and infrastructure costs is laudable.

I thank the team tasked with this mission of providing waivers for schools and libraries that have exceeded the deadline and humbly ask your approval of our school's waiver.

**You have my sincerest thanks in advance.**

**Latoya Williams, Principal**
